

Annual Corporate Partnership Packages

Why TEF

The Torrance Education Foundation (TEF) is an independent 501(c)(3) nonprofit, serving the students and schools in the Torrance Unified School District (TUSD). TEF provides funding and resources to TUSD that helps fill the State funding gap.

TEF funded projects for all Torrance schools such as fully furnished elementary science labs and consumable materials, Wi-Fi at all campuses, STEM programs and grants, college scholarships, and more! This year, due to the COVID-19 pandemic, TEF seeks to partner with the District and prepare for students returning to schools by installing refillable water stations at each school, creating healthier and more environmentally friendly schools.

By becoming a Corporate Partner with TEF, your business can provide better educational experiences as well as a healthier and safer campus life for 23,000 students and 31 Torrance schools!

Visibility
